- British Standard BS EN 13724

Why do I need a DAD009 and not a Letterplate?

Secured By Design is committed to preventing crime at design level and when it comes to letter plates in peoples front doors (as 80% of burglaries are through your front door) their main concerns are:

- **Lock Manipulation**
- **Car Theft**
- **ID Theft**
- **Arson Attacks**
- **Thermal Co-efficiency**
- **Noise Reduction**
